Dear CSCE Members,

The Presidential and midterm elections are over; we have a new President and new leadership in the Connecticut Senate as well. It is my hope that this change in leadership will be the beginning of better investment civil engineering infrastructure in Connecticut as well as throughout the country. Civil Engineers should continue to be actively involved in public policy. This is why ASCE is trying to expand its State Advocacy Program to include a State Advocacy Captain in every state. CSCE’ Public Relations Chair, Roy Merritt, is doing an excellent job keeping the membership appraised on state policies important to our profession. This is a good time to get more involved. I would encourage you to be active within the organization so we can continue to promote our profession, maintain a healthy pipeline of professionals and influence public policies.

This is the last CSCE newsletter for this year, so I would like to take this opportunity to remind you to renew and update your membership information as well as your local CSCE dues before Christmas. It is important to pay the CSCE local membership dues because they are critical in subsidizing monthly dinner meetings, annual seminars, student scholarships, Achievement in Civil Engineering Awards dinner, and cover some of the expenses for Board members to attend ASCE Leadership Workshops. We are truly grateful for all current and past CSCE Board members and the numerous volunteers that ensure a very active Civil Engineering Section.

Our next monthly dinner meeting will be at Central Connecticut State University on January 31, 2017.

Happy Holidays to you and your families!

Hudson Jackson, PhD, P.E., Dipl-Ing, M.ASCE
Special Offer on ASCE Webinars for Connecticut Section Members

Did you know that as a Connecticut Section member you get a discount on ASCE National Webinars? Plus some of the registration fee comes back to help fund other Section activities!
GET INVOLVED IN CSCE!!

Do you want to be more involved in CSCE? Are you interested in being a committee member or serving on the CSCE Executive Board? We are looking for people like you!

Contact our 2016-2017 President Hudson Jackson at president-2016@csce.org to find out how you can get more involved.

Together we can make “A Better World by Design”!!

Any and all involvement is WELCOME!!

Upcoming Continuing Education Opportunities in New England

December 5-6, 2016

Investigation, Analysis, and Remediation of Building Failures (80442017) - Braintree, MA

2017

March 9-10, 2017

Project Management for Civil Engineers: Planning, Scheduling and Control (80872017) - Braintree, MA

April 7 ~ CSCE Geotechnical Workshop* - University of New Haven, West Haven, CT

Topic: Connecticut Valley Varved Clay
UPCOMING CSCE DINNER MEETING:

**Topic:** Route 8 Bridgeport Design-Build, Accelerated Bridge Construction Techniques

**Date:** Tuesday, January 31st 2016  
**Time:** 5.30PM to 7.00PM

**Co-Sponsors:** Structures Technical Group and the ASCE Student Chapter at CCSU

**Speaker:** Tom Laliberte, Parsons Brinckerhoff, Justin Gill Manafort Brothers and a CTDOT Representative (TBD).

Manafort Brothers, Inc. and WSP|Parsons Brinckerhoff teamed together to complete CTDOT's first design-build project, Route 8 in Bridgeport. The project included:

- The replacement of four bridge superstructures;
- Infilling of 10 bridge spans;
- Construction of retaining walls;
- Rehabilitation of a 570-foot long bin wall;
- Various pavement and intersections improvements.

To minimize impacts to the travelling public and abutters, ABC techniques were used in conjunction with MP & T to reduce the majority of the construction to take place within two 14-day crossover stages. Some ABC techniques utilized include:

- Accelerated demolition;
- Prefabricated bridge units (PBUs);
- Precast substructure elements.

To reduce future maintenance requirements, weathering steel was utilized and bridge joints were eliminated through the use of link slabs and semi-integral back walls.

**Location:** Central Connecticut State University, New Britain
Younger Member’s upcoming activities

Younger Members on Facebook we have recently created a Facebook page to communicate future Younger Member events. Search for CSCE Younger Members or follow the link https://www.facebook.com/CSCEYM and like the group.

For Members 35 Years or Younger
CSCE Younger Members Committee

The CSCE Younger Members Committee encourages the full professional development of engineers who are 35 years of age or younger and endeavors to increase their participation in CSCE and ASCE activities. Please contact Aaron Foster, Younger Members Committee Chair, at youngermembers-2016@csce.org for more information about the activities of this Committee.
Younger Member Dunkin Donuts Stadium Construction Tour: —
The Younger Member group took a construction site tour of Hartford’s new Dunkin Donuts Stadium in construction in November. Thank you to Centerplan for hosting this interesting event.

Unemployed? ASCE National has a program to waive dues of unemployed members. For more information, please contact Patrick Ballou directly at the following address:

Patrick Ballou, Membership Coordinator
American Society of Civil Engineers
1801 Alexander Bell Drive
Reston, VA 20191-4400
Toll free: 1-800-548-ASCE
Direct: 703-295-6169
Fax: 703-295-6335

CSCE is soliciting pictures and projects of your favorite Civil Engineering landmarks in CT. The goal is to broadcast the civil engineering projects in Connecticut to our readers. If you have pictures of bridges, buildings, deep cuts, high embankments, monstrous retaining walls, even miniature construction sites, etc. (be creative!) send us a brief description and photograph and we will include it in the next CSCE newsletter. Please send all the information to nl-editor-2016@csce.org
Pearl Harbor Memorial Bridge is one of five finalists for the 2017!!!

September 9, 2016

James A. Platosh, Project Manager
AECOM
Rocky Hill, CT
Jim.platosh@aecom.com

Dear Mr. Platosh:

I am pleased to inform you that Pearl Harbor Memorial Bridge is one of five finalists for the 2017 Outstanding Civil Engineering Achievement (OCEA) award. The other finalists are: Chhatrapati Shivaji International Airport – Terminal 2, Mumbai, India; Dallas Streetcar Project, Dallas, TX; Emergency & Carryover Storage Project, San Diego, CA; and One World Trade Center, New York City, NY.

One of these five finalists will be announced as the winner of the Outstanding Civil Engineering Achievement award presented at the Outstanding Projects and Leaders (OPAL) Gala on Thursday, March 16, 2017 at the Renaissance Arlington Capital View Hotel, Arlington, VA.

Established in 1960, the OCEA award annually recognizes the project that best illustrates superior civil engineering skills and represents a significant contribution to civil engineering progress and society. It is quite an achievement to be selected as a finalist from among the many entries received each year. The project selected as the 2017 OCEA winner joins the ranks of past OCEA recipients such as the JFK International Airport, the World Trade Center, Walt Disney Epcot Center, and many more. To be designated as an award finalist is certainly a prestigious honor.

In the pages that follow, please read the letter from Jane Moran Alsipach, Senior Manager of ASCE’s Honors and Awards Program, and respond to her requests so we can begin to publicize your project as an OCEA finalist.

Congratulations to you and your colleagues for this exceptional achievement! I look forward to meeting you at the OPAL gala.

Sincerely,

Thomas W. Smith III, ENV SP, CAE, F.ASCE
Executive Director

Are you a recent college graduate. Or about to be?
Do you know someone who is?
Stay with ASCE!!

Did you know that ASCE offers pro-rated discounted membership dues for recent college graduates? For more information visit http://www.asce.org/membership

Are you a “Younger Member”?  

A Younger Member is considered to be 35 years of age or younger. The Younger Member Committee Fosters the professional growth, ethical awareness, and technical competence of the Section’s younger members. The Committee meets once a month, and organizes several activities throughout the year, including those for fun and community service. Check future issues of this newsletter for upcoming events. If you are interested in joining the committee or want more information, contact youngermembers-2016@csce.org.

Oppose a Sales Tax on Engineering Services!

The Connecticut General Assembly’s Finance Committee has approved legislation (SB 946) that would expand the state sales tax to engineering services. Other professional services are also included in this bill, such as architectural services.

If passed, this bill will raise costs for those seeking engineering services in Connecticut, increase construction costs, and likely slow the growth of construction development, manufacturing, and engineering in the state. It will result in engineering firms located outside of Connecticut having a competitive cost advantage over local engineering firms.

Visit ASCE’s website to read background on the issue and send a message to your state legislators today!

ASCE’s Honors and Awards program recognizes the remarkable accomplishments of the civil engineering profession. With more than 80 awards, the program distinguishes the unique contributions engineers make to both the industry and society.

ASCE has many honors and awards to recognize deserving members. For a complete listing of all ASCE awards, please visit www.asce.org/awards.
The Connecticut Society of Civil Engineers was formed in 1884. Separately, the Connecticut Section of the American Society of Civil Engineers (ASCE) was founded in 1919. The two organizations merged in 1981. We represent about 1,600 civil engineers statewide.

Cardinal Engineering Associates, Inc., a growing consulting civil engineering firm located in central Connecticut, and celebrating its 55th year in business, is seeking the following: **Business Development Director, Marketing Assistant and Structural (Bridge) Engineers, Resident Engineers, Chief Inspectors, and Inspectors** to provide resident engineering services for a variety of roadway, bridge, sanitary sewer and other infrastructure projects in Connecticut. Cardinal has a backlog of 10 bridges in design or construction in 2016.

**Business Development Director and Marketing** Assistants should have a minimum of 5 years’ relevant experience with a Civil Engineering firm. A Civil engineering degree is preferred.

**Resident Engineers** should have a B.S.C.E. with at least 6 years' experience in construction. The Chief Inspectors and Inspectors should be a B.S.C.E. or NICET III or NICET IV with 5 years' experience.

**Structural Engineer:** Bridge Engineer with a BSCE and four years' experience in the design of highway bridges for CTDOT. Experience with AutoCAD Civil3D and/or Bentley Microstation is required.

**Senior Structural Engineer:** Structural Engineer with a BSCE and a minimum of eight (8) years' experience in the design of highway bridges for CTDOT and a CT P.E. license. Experience with AutoCAD Civil3D and/or Bentley Microstation is required.

Chief Structural Engineer: Structural Engineer with a BSCE and a minimum of ten (10) years' experience in the design of highway bridges for CTDOT and a CT P.E. license. Experience with AutoCAD Civil3D and/or Bentley Microstation is required.

Cardinal offers a comprehensive benefits package which includes a competitive salary Health, Disability and Life Insurance and a 401K plan. Equal Opportunity Employer.

CDM Smith—Civil Engineer 5 (Traffic): Job Posted October 21, 2016

By providing a challenging and progressive working environment (with advanced business technology tools for project management, communication, and flex work options) CDM Smith attracts the best people in the industry. Join our growing transportation services group to take on new assignments for a number of New England Departments of Transportation as well as municipalities and help our group continue to expand.

As a member of this team, you would contribute to CDM Smith's mission by:

-Performing Traffic Engineering tasks and collaborating with existing staff on MassDOT, RIDOT, and CTDOT assignments as well as supporting pursuits throughout New England.
-Will provide design guidance, teaching and mentoring for junior Traffic Engineers throughout Connecticut, Rhode Island and Massachusetts.

Minimum qualifications;

-B.S. in engineering.
-At least 7 years of experience since B.S. within the following areas; traffic analysis and traffic impact studies, traffic simulation modeling, traffic signal design, signal communication design, maintenance and protection of traffic, preparation of technical reports, and letters and peer reviews.
-Registration as a licensed P.E.
-Experience with software programs including Microstation V8, AutoCAD, Synchro/SimTraffic, SIDRA, VIS-SIM, and Microsoft Office.
-Excellent written and oral communication skills.

EOE

Please apply by visiting this link; 

Loureiro Engineering Associates, Inc. (Loureiro), a 100% employee owned (ESOP), full-service multi-disciplinary engineering consulting firm located in Plainville, Connecticut, is seeking mid-level candidates with 3-5 years experience in site design, permitting, stormwater/wastewater assessments, and construction administration on a wide variety of challenging projects.

Assignments will include site plan preparation, permit applications, stormwater and wastewater collection and treatment design, and construction oversight.

Candidates should possess a B.S. degree in Civil Engineering, be team-oriented and have strong communication and technical writing skills. P.E. or an ability to obtain a P.E. within 1-2 years is preferred.

If this describes you, and you would like to be considered for a position, we would like to hear from you. Apply online to Resume@Loureiro.com. We offer a competitive salary and a well-rounded, comprehensive benefits package.

An Affirmative Action/Equal Opportunity Employer
EMPLOYMENT CLASSIFIEDS (continued from page 15)

TPA Design Group – Civil Engineer

TPA Design Group is a dynamic multi-disciplinary consulting firm with over 70 years of continuous service to clients throughout New England.

We are seeking a Connecticut PE with three to five years of practical experience including hydrology, storm drainage and sanitary sewer design, utility layout, site and roadway layout, grading and erosion control. Must demonstrate supervisory skills, ability to communicate with and direct coworkers, team with other professional disciplines and interact with clients and the general public. Full competency with AutoCAD Civil 3D and Hydrologic/Hydraulic modeling software required.

Salaries and benefits are open and will be negotiated based upon applicant’s experience. Send resume, including salary history and requirements in confidence to: TPA Design Group, 85 Willow Street, New Haven, CT 06511. For more information, please contact David Golebiewski – david@tpadesigngroup.com
